Dear Tanya Francis
Re: Reciprocal CRN Registration in Manitoba

Your application indicates that a CRN has been received in another Canadian Jurisdiction, and therefore your CRN has been registered in Manitoba as follows:

File Number: 74-R215
CRN: 0D21781.54
Scope: Attachment A and B for Scope of Registration
Manufacturer: SWAGELOK COMPANY

Please find attached invoice for registration.

As indicated by the Regulatory Reconciliation and Cooperation Table and the Reconciliation Agreement for the Canadian Registration Number (CRN) for Pressure Equipment, a CRN issued in any Canadian Jurisdiction will be accepted for use in Manitoba.

In accordance with Steam and Pressure Plants Regulation and CSA B51, it is the manufacturer's responsibility to file a Manufacturers Data Report, including partial data reports, with our office, prior to shipping pressure equipment to Manitoba.

Please contact me directly via email at Cheryl.Lashek@gov.mb.ca for any questions or concerns.

Configuration Example:

FL hoses are available in two sizes with many end types, end sizes, and possible overall lengths.

The corrugated tubing and braid are attached to the end connection with a Gas Tungsten Arc Weld (GTAW) cap weld process.

Cap weld end combines the end connection with the collar. The part is welded within the groove after crimping.
